Country or territory

Region
Latin America and the Caribbean
Income group
Upper middle income

National Context

- Rural (% of population)
  - Year 2017: 19.6%

- Life expectancy at birth, total (years)
  - Year 2017: 74.6 years

- Poverty headcount ratio at $3.20 a day (2011 PPP) (% of population)
  - Year 2017: 10.8%

Note: This section includes the main demographic and socioeconomic indicators of the country for the last available year.

4.1 - Free, equitable and quality primary and secondary education

Indicators

- Indicator 4.1.1 - Proportion of children and young people achieving at least a minimum proficiency level in reading, by sex
  - Data for the country is not available

- Indicator 4.1.1 - Proportion of children and young people achieving at least a minimum proficiency level in mathematics, by sex
  - Data for the country is not available

What is this?
The bars represent the percentage of students in each level achieving minimum proficiency level in reading and mathematics. Minimum proficiency level (MPL) is the benchmark of basic knowledge in a domain (mathematics, reading, etc.) measured through learning assessments. Currently, there are no common standards validated by the international community or countries. The MPL used for this chart was set by each of the projects providing the data.

Data sources
Various cross-national learning assessments including Programme d’analyse des systèmes éducatifs de la CONFEMEN (PASEC), Progress in International Reading Literacy Study (PIRLS), Programme for International Student Assessment (PISA), Southern and Eastern Africa Consortium for Monitoring Educational Quality (SACMEQ), Tercer Estudio Regional Comparativo y Explicativo (TERCE) and Trends in International Mathematics and Science Study (TIMSS).

Year: 2017

4.2 - Quality early childhood development, care and pre-primary education

Indicator 4.2.1 - Proportion of children under 5 years of age who are developmentally on track in health, learning and psychosocial well-being, by sex

**What is this?**
The slices represent the percentage of children aged 36-59 months who are developmentally on track in at least three of the following four domains: literacy-numeracy — to identify at least 10 letters of the alphabet, read 4 simple words and recognise and name all numbers from 1 to 10; physical — to pick up small objects easily and are generally well enough to play; socio-emotional — to undertake simple activities independently, get along with other children and do not usually kick, bite or hit other children or adults; and learning — participate in any type of organized learning including early childhood education, kindergarten or community care.

Source: Early Childhood Development Index from UNICEF’s Multiple Indicator Cluster Surveys (MICS) and USAID’s Demographic and Health Surveys (DHS).

Indicator 4.2.2 - Participation rate in organized learning (one year before the official primary entry age), by sex

**Data sources**

4.3 - Quality TVET and tertiary education

Indicator 4.3.1 - Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months, by sex

**What is this?**
The lines represent the percentage of children in the given age range who participate in one or more organized learning programmes, including programmes which offer a combination of education and care. Participation in early childhood education and in primary education are both included. The age range will vary by country depending on the official age for entry to primary education.

4.4 - Technical and vocational skills

Indicator 4.4.1 - Proportion of youth and adults with information and communications technology (ICT) skills, by type of skill

**Data sources**
Source: National household surveys. Data compiled by Eurostat and International Telecommunications Union (ITU).

Proportion of youth and adults who have... (%)
### 4.6 - Youth and adult literacy and numeracy

**Indicator 4.6.1** - Percentage of population in a given age group achieving at least a fixed level of proficiency in functional (a) literacy and (b) numeracy skills, by sex

**Literacy**

- Data for the country is not available

**Numeracy**

- Data for the country is not available

**What is this?**

The slices represent the percentage of the population (aged 15 years and above) who have achieved or exceeded a given level of proficiency in literacy and numeracy.

**Data sources**

National household surveys coordinated by the OECD Programme for the International Assessment of Adult Competencies (PIAAC) and the World Bank’s Skills Towards Employment and Productivity (STEP).

---

### 4.a - Education facilities

**Indicator 4.a.1** - Proportion of schools with access to: (a) electricity; (b) the Internet for pedagogical purposes; (c) computers for pedagogical purposes; (d) adapted infrastructure and materials for students with disabilities; (e) basic drinking water; (f) single-sex basic sanitation facilities; and (g) basic handwashing facilities (as per the WASH indicator definitions)

**Country**

**Region**

**Data sources**

Administrative data from schools and other providers of education or training. Data compiled by the UNESCO Institute for Statistics.
