National Context

- **Rural (% of population)**
  - Year 2017: 76.7%

- **Life expectancy at birth, total (years)**
  - Year 2017: 71.0

- **Poverty headcount ratio at $3.20 a day (2011 PPP) (% of population)**
  - Year 2013: 58.8%

Note: This section includes the main demographic and socioeconomic indicators of the country for the last available year.

Sources: (1) rural population and life expectancy: UN Population Division; (2) poverty headcount ratio: World Bank.

Education System

- **Official entrance age (years)**
  - Year 2018:
    - Pre-primary: 3
    - Primary: 6
    - Lower Secondary: 12
    - Upper Secondary: 15

4.1 - Free, equitable and quality primary and secondary education

**Indicator 4.1.1 - Proportion of children and young people achieving at least a minimum proficiency level in reading, by sex**

- (a) in Grade 2 or 3
- (b) at the end of primary education
- (c) at the end of lower secondary education

**What is this?**

The bars represent the percentage of students in each level achieving a minimum proficiency level in reading and mathematics. Minimum proficiency level (MPL) is the benchmark of basic knowledge in a domain (mathematics, reading, etc.) measured through learning assessments. Currently, there are no common standards validated by the international community or countries. The MPL used for this chart was set by each of the projects providing the data.

**Data sources**

Various cross-national learning assessments including Programme d’analyse des systèmes éducatifs de la CONFEMEN (PASEC), Progress in International Reading Literacy Study (PIRLS), Programme for International Student Assessment (PISA), Southern and Eastern Africa Consortium for Monitoring Educational Quality (SACMEQ), Tercer Estudio Regional Comparativo y Explicativo (TERCE) and Trends in International Mathematics and Science Study (TIMSS).

**Indicator 4.1.1 - Proportion of children and young people achieving at least a minimum proficiency level in mathematics, by sex**

- (a) in Grade 2 or 3
- (b) at the end of primary education
- (c) at the end of lower secondary education

Data for the country is not available.
### 4.2 - Quality early childhood development, care and pre-primary education

**Indicator 4.2.1 - Proportion of children under 5 years of age who are developmentally on track in health, learning and psychosocial well-being, by sex**

![Image of a line graph showing the percentage of children aged 36-59 months who are developmentally on track in at least three of the following four domains: literacy-numeracy, physical, socio-emotional, learning. The lines represent the percentage of children in the given age range who participate in one or more organized learning programmes, including programmes which offer a combination of education and care. Participation in early childhood education and in primary education are both included. The age range will vary by country depending on the official age for entry to primary education.]

Source: Daily Childhood Development Index from UNICEF’s Multiple Indicator Cluster Surveys (MICS) and USAID’s Demographic and Health Surveys (DHS).

### 4.3 - Quality TVET and tertiary education

**Indicator 4.3.1 - Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months, by sex**

![Image of a bar chart showing the participation rate in organized learning (one year before the official primary entry age), by sex.]

### 4.4 - Technical and vocational skills

**Indicator 4.4.1 - Proportion of youth and adults with information and communications technology (ICT) skills, by type of skill**

<table>
<thead>
<tr>
<th>Proportion of youth and adults who have... (%)</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

Source: Eurostat’s Adult Education Survey (AES), OECD’s Survey of Adult Skills (PIAAC), national Labour Force Surveys.

Source: National household surveys coordinated by the EU Adult Education Survey (AES, target population 25-64 years) and OECD Survey of Adult Skills (PIAAC, target population 18-64 years).

Sources: Eurostat and International Telecommunication Union (ITU).
4.6 - Youth and adult literacy and numeracy

Indicator 4.6.1 - Percentage of population in a given age group achieving at least a fixed level of proficiency in functional (a) literacy and (b) numeracy skills, by sex

<table>
<thead>
<tr>
<th>Literacy</th>
<th>Numeracy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Data for the country is not available</td>
<td>Data for the country is not available</td>
</tr>
</tbody>
</table>

What is this?
The slices represent the percentage of the population (aged 15 years and above) who have achieved or exceeded a given level of proficiency in literacy and numeracy.

Data sources
National household surveys coordinated by the OECD Programme for the International Assessment of Adult Competencies (PIAAC) and the World Bank’s Skills Towards Employment and Productivity (STEP).

4.a - Education facilities

Indicator 4.a.1 - Proportion of schools with access to: (a) electricity; (b) the internet for pedagogical purposes; (c) computers for pedagogical purposes; (d) adapted infrastructure and materials for students with disabilities; (e) basic drinking water; (f) single-sex basic sanitation facilities; and (g) basic handwashing facilities (as per the WASH indicator definitions)

OECD’s Programme for the International Assessment of Adult Competencies (PIAAC), World Bank’s STEP Skills Measurement Programme (STEP).

Year (country): 2018
Year (region): 2017

Page 3 of 4
### 4.b - Scholarships

**Indicator 4.b.1 - Volume of official development assistance flows for scholarships, constant US$**

What is this?
Total net official development assistance (ODA) for scholarships in donor countries expressed in US dollars at the average annual exchange rate.

Data sources
Administrative data from donor countries and other aid providers on net official development assistance to education. Data compiled by the Development Assistance Committee (DAC) of the Organisation for Economic Co-operation and Development from returns submitted by its member countries and other aid providers.

### 4.c - Qualified teachers

**Indicator 4.c.1 - Proportion of teachers in: (a) pre-primary education; (b) primary education; (c) lower secondary education; and (d) upper secondary education who have received at least the minimum organized teacher training (e.g. pedagogical training) pre-service or in-service required for teaching at the relevant level in a given country, by sex**

What is this?
Percentage of teachers by level of education taught (pre-primary, primary, lower secondary and upper secondary education) who have received at least the minimum organized pedagogical teacher training pre-service and in-service required for teaching at the relevant level in a given country.

Data sources
Administrative data from schools and other providers of education or training. Data compiled by the UNESCO Institute for Statistics.
